

Guidelines for Road Groups to Apply for matching DRCI Funds

(As of June 15, 2023)

As part of the Emergency Access Initiative, the DRCI Board of Directors has compiled the following list of guidelines for DRCI Road Groups who wish to apply for matching DRCI funds:

1. The group MUST have the involvement of the majority of shareholders in the area where the work is being completed.
2. Road Group must form an association with a separate checking account (no personal checking accounting allowed)
3. Monies awarded must be used for main artery roads (no private driveways)
4. Each group must define the parameters of their project (from where to where)
5. Copy of project invoices must be provided to DRCI. (The DRCI board of directors wishes to keep track of the money spent on improving DRCI roads)
6. DRCI requests before and after pictures of the project
7. Any permits required must be in the name of the road group, paid for by the road group, and must be applied for before the project begins.

Each established road group may apply for up to a \$3,000 match by DRCI

The deadline for the application of funds for 2023 is July 31, 2023, and the deadline to use these funds is December 1, 2023.

This project will be re-evaluated in January 2024.

All decisions by the DRCI board are final.
